PROFESSIONAL SUMMARY

BCA (Data Science) graduate with hands-on experience in Python, SQL, Machine Learning, NLP, and Generative AI. Experienced in building AI applications using Scikit-learn, TensorFlow, AWS, and developing AI automation workflows with n8n, including WhatsApp chatbot automation. Passionate about creating intelligent AI solutions using LLMs and modern AI technologies.

EDUCATION

SRM Institute of Science and Technology

Bachelor of Computer Application (Data Science), GPA: 9.35

Relevant Coursework: Data Science, Data Wrangling, DBMS, Natural Language Processing, Machine Learning, Deep Learning, Computer

Vision

Chennai, Tamil Nadu

June 2023 – May 2026

Prasan Vidhya Bala Mandir Hr. Sec. School

Higher Secondary Education (12th), GPA: 8.95

Chengalpattu, Tamil Nadu

2022 – 2023

SKILLS SUMMARY

- **Languages:** SQL, Python, HTML
- **Frameworks & Libraries:** Pandas, NumPy, Scikit-learn, TensorFlow, Keras, NLTK, Flask, Fast API, REST API, Open Cv, Matplotlib
- **Tools:** Power Bi, Git, AWS S3, AWS IAM, AWS EC2, HDFS
- **Platforms:** Jupyter Notebook, VS Code, Windows, AWS
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication, Stakeholder Collaboration, Leadership, Time Management

INTERNSHIP

Rubixe Innovative Tech Solutions

Data Scientist Intern

Remote

Oct - Dec 2025

- Evaluated model performance using Accuracy, Precision, Recall, F1-Score, ROC-AUC, and Confusion Matrix while comparing multiple machine learning algorithms for optimal model selection.
- Built reusable machine learning pipelines using Scikit-learn to streamline preprocessing, feature engineering, model training, and prediction workflows.
- Performed feature engineering and feature selection to enhance model interpretability and predictive performance while minimizing overfitting.
- Implemented KNN, Decision Tree, Logistic Regression, and Random Forest models using Scikit-learn and evaluated their performance.

PROJECTS

- **LLM Powered RAG Chatbot:** Developed an LLM-powered Retrieval-Augmented Generation (RAG) application using Python, LangChain, and FAISS/ChromaDB for intelligent document-based question answering. Implemented document processing, embedding generation, semantic search, and context-aware response generation using Large Language Models (LLMs).
- **WhatsApp AI Chatbot Automation:** Developed an AI-powered WhatsApp chatbot using n8n to automate customer interactions and business workflows. Integrated LLM APIs, webhooks, and REST APIs to deliver intelligent, context-aware responses. Designed scalable automation workflows to improve response efficiency and reduce manual effort.
- **Data Pipeline Automation using Python (ETL Framework):** Developed Python-based ETL pipelines to extract, transform, and load structured datasets. Automated data cleaning, preprocessing, and validation to improve data quality. Built reusable data processing workflows that reduced manual effort and supported analytics and reporting.
- **AI Resume Screening System:** Developed an NLP-powered ATS tool to score resumes against job descriptions and highlight skill gaps. Integrated PDF parsing and semantic similarity to automate candidate shortlisting and improve hiring efficiency.
- **AI Decision Support System:** Engineered an AI decision support platform using machine learning and predictive analytics to generate actionable insights from data. Automated data interpretation and recommendation scoring to support informed decision-making for stakeholders.
- **AI Study Planner:** Built an AI-driven study planning system in Python implementing fatigue score computation, priority-based task scheduling, and user-input pipelines. Designed modular architecture enabling scalable feature expansion and future machine learning integration.

CERTIFICATIONS

- **AWS Generative AI Foundation:** Completed AWS Generative AI Foundation course covering LLM fundamentals, prompt engineering, and applied AI workflows on AWS.
- **Mastering Generative AI (GeeksforGeeks):** Completed hands-on training in LLM fundamentals, prompt engineering, and practical generative AI applications.
- **Google Data Analytics Certificate:** Trained in data cleaning, analysis, visualization, and SQL to derive actionable business insights.
- **Research Methodology in Data Science:** Developed an understanding of data collection, statistical validation, and experimental evaluation techniques used in data science. Gained exposure to structured research workflows and best practices for AI/ML projects.

HONORS AND AWARDS

- **Academic Excellence Award:** Secured First Rank in Mathematics at college level.
- **Merit Scholarship:** Received NGO-sponsored merit scholarship for academic excellence.
- **Club Excellence Award:** Recognized for outstanding performance and significant contributions to club growth and engagement.

VOLUNTEER EXPERIENCE

- **Tamil Mandram Club:** Assisted in planning and executing college events while coordinating logistics and participant engagement for smooth operations.
- **Freelance Video Editor:** Delivered video editing services for clients and college events, producing high-quality visual content. Managed client requirements, revisions, and timelines to ensure successful project delivery.
